# Mobile Literacy for Out-of-School Children in Thailand

© UNESCO/S. Panthong

Disadvantaged children will acquire basic literacy and numeracy skills and get to the certified learning levels through Mobile Learning and ICT devices (tablets, satellite TV and internet).

**5,407** learners at **60** schools and learning centers along the Thai-Myanmar border benefited from Mobile Learning.

More than **1,000** books are preloaded with multiple content app in Thai, Burmese and Karen languages in the tablets.
